## 1) Introduction

MARLISCO Video Contest aims to encourage and provide the opportunity for youngsters to get in touch with the issue of marine litter in the European Regional Seas and share their visions with the broader European public. Youngsters are invited to develop and produce a short video in which they express their views about the problem and become agents of change in society – not only as they represent the next generation of consumers and decision makers but because they are often source of inspiration and influence in their family and community. This challenge can be taken by a school, youth association or club, as a curricular or parallel activity within a class and approached from several or multiple disciplines. It promotes critical thinking and active citizenship, regarding a complex problem that is responsibility of and affects every one of us.

This video contest is integrated in the European FP-7 project MARLISCO - *Marine Litter in Europe's Seas: Social Awareness and Co-responsibility* - and it will be simultaneously launched in 14 European coastal countries: **Italy, The Netherlands, United Kingdom, France, Slovenia, Ireland, Romania, Germany, Cyprus, Bulgaria, Spain, Portugal, Turkey and Denmark.**

This document sets the Rules and Conditions for MARLISCO Video Contest in "COUNTRY"

The general rules and conditions are common for every participating country but aspects such as the target ages, jury and awards are defined at the national level. The participants should therefore consult and consider the Rules & Conditions applicable to their country. Please note that the competition is carried at the national level **ONLY** and therefore participants will only compete with other participants from the same country.

MARLISCO reserves the right, in its sole discretion, to modify the Rules & Conditions of the Video Contest.

## 2) Participants

In "COUNTRY", MARLISCO Video Contest is open for youngsters from xx to xx years old, which can work and submit their videos as a team within a youth association, club or class, preferably supervised by a teacher/educator. The video **must be always backed-up and submitted through a legal "COUNTRY" entity** (e.g. School). There is no limit for the number of videos submitted by a team.

## 3) Collaboration with schools from a different EU country

If the school has its own trans-national collaboration programme (e.g. European Platform, *E-Twinning*), it is possible to produce and submit a video in collaboration with a team/class from another country. However, such a video must be submitted as a "normal" entry for "COUNTRY" and, in case of selection, only the "COUNTRY" team will be eligible for the award.

## 4) Themes for the videos

The team has full freedom to decide on the topic and scope of the video, provided that it relates to one or a combination of the topics listed below:

- *Why marine litter is a problem?*

This project has received funding from the European Union's Seventh Framework Programme (FP7 2007-2013) under grant agreement n° 289042.

- *Where does marine litter come from?*
- *What can be done to reduce the problem of marine litter?*
- *What have we done to tackle the problem in our school or community?*
- *Innovative ideas / solutions on how to tackle the problem.*
